EDUCATION

Georgia Institute of Technology

Bachelor of Science in Computer Science

Atlanta, GA

December 2018

CAREER OBJECTIVE

I am a full stack web software engineer interested in opportunities to build exciting and useful projects. I am proud to have worked in a variety of software stacks and product domains

EXPERIENCE

Adobe

Software Engineer

Austin, TX

February 2019 - present

- Core developer for Magento 2 Open Source and Enterprise ecommerce applications where I have contributed bug fixes and new features
- Fixed, configured, and deployed builds for packaging new internal/external releases of Magento 2
- Rewrote large portions of internal semantic versioning checker tool to decrease memory usage by gigabytes and reduce execution time by an hour
- Performed numerous code reviews for contributions from 3rd party vendors and my own team.
- Identified breaking and incompatible changes (BIC) for patch and minor releases and investigated and coordinated approval process for these BIC
- Wrote PHP and JS integration/unit tests and automated MFTF/Codeception end-to-end functional tests

AT&T

Entertainment Group Summer Intern

El Segundo, CA

June 2017 - August 2017

- Ported internal CDN manager logic from old monolith application to a new microservice
- Created front-end for internal CDN manager microservice using Polymer
- Constructed Web API to exclude problematic CDNs from client selection using Java/Spring and Couchbase
- Created test suites for application coverage

Dell

Dell Financial Services IT Intern

Round Rock, TX

May 2016 - August 2016

- Wrote business logic to handle automated customer loan approval utilizing .NET and SOAP responses
- Wrote scripts to greatly expedite deployment to test environments
- Upgraded .NET applications to use TLS 1.2, restoring credit score vendor integration

Nead Werx

Junior Mobile Engineer

Atlanta, GA

May 2014 - December 2015

Data driven consulting company whose primary product is an ERP solution

- Ported ERP web client functionality to native Android/iOS client applications
- Wrote new features for these mobile ERP applications
- Added local database caching functionality for new features on Android clients
- Wrote XML web services and JSON REST API services for consumption by mobile and browser clients
- Wrote client-side logic for consumption of web services on mobile and web clients
